# Sajjad Saroya

## Mobile Developer

To secure a challenging and rewarding position as Mobile Developer with an established organization that can utilize my skills and experience. Design and coded from specification, analyzed, evaluated, tested, and implemented complex software's.

## EXPERIENCE

### 2021 Flutter Development

I recently introduced with Flutter (Dart) Platform and found a very effective environment for Mobile and Web developments. I have completed 3 Freelance jobs as a flutter developer. I am very well aware of the use of followings. Stateless, Statefull Widgets, Routes, HTTP dependency, SharedPreferences Dependency, I am fully aware of the use of SafeArea, Scaffold, Containers, Rows, Columns, SingleChildScrollView, Images, Text, BoxDecoration, and the list goes on.

### 2021 – Android Developer/ Semester Project

I have developed chatting app with **JAVA** named as **MUSSAPP** which was my semester project. With the functionalities of sending and receiving messages from both ends.

I have used **Firebase** database for this task.

### 2021 - Intern /GIFT UNIVERSITY GUJRANWALA

I have done internship in fall 2018,2019 and in 2020 admission Office in admission campaign by performing multiple tasks. Like EWYL orientation, admission guide, Data Entry, and other management tasks.
